

In January 28, 1948
 a chartered Immigration Service plane
 crashed & burned in West Fresno county,
 killing 28 mexican deportees.

Their identities were unknown when they
 were laid to rest and it wasn't until
~~over~~ 2013, over six decades later, that
 they were given a proper funeral.

28 Air Disaster Victims Buried in MASS RITE

"FINAL SOLEMNITIES OF THE CHURCH were accorded 28 Mexican nationals, victims of Central California's worst air disaster, when they were laid to rest in Holy Cross cemetery Jan. 31 in the largest mass funeral in Fresno history."

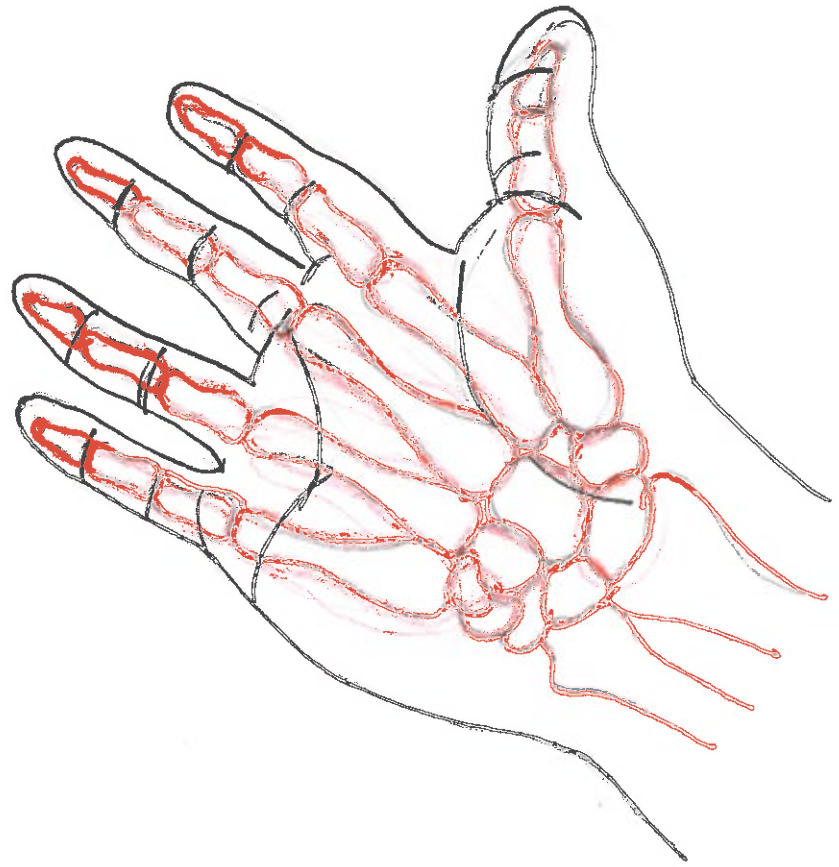

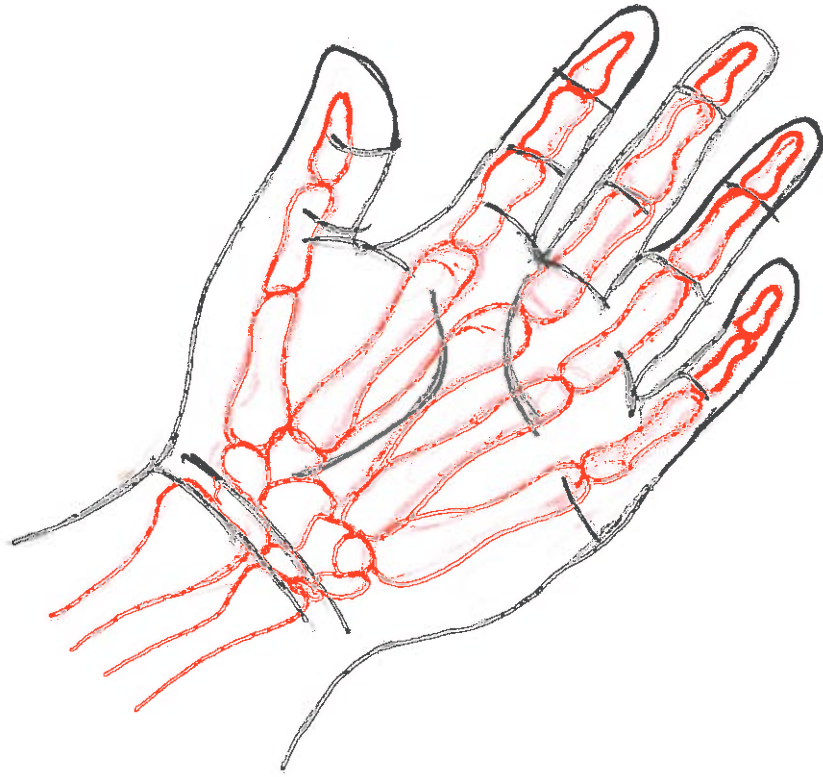

Out of the 28 ~~immigrants~~ immigrants that died on the plane crash, only the families of four of those immigrants know of their fate.

Besides these four, the stories of those immigrants have been lost.

These 28 immigrants were not the first, nor ~~were~~ were they the last to die due to the immigration system in the U.S.

The hands on this page is a tattoo designed to pay tribute to the 28 immigrants whose names live on in memory and is dedicated to the millions of immigrants who continue to produce manual labor in the U.S. where their live and well-being are in constant jeopardy.
